FLEXI-DRIVE™ SPRINT.

PLUSEDITION - HIGHER PERFORMANCE

USB 3.0 SUPER SPEED

16 GB 32 GB 64 GB

The Flexi-Drive Sprint Plus is the successor to the Flexi-Drive Sprint and is aimed at buyers who appreciate attractive design and excellent technical data. The USB3.0 memory stick is concealed in a black plastic case with blue detailing and provides the latest in storage technology - a read rate of up to 190 MB/s and write speeds of up to 40 MB/s through a USB3.0 interface. The allows data transfer through USB3.0 to be about 10x faster than USB2.0, the memory stick is of course backwards compatible. The stick is available in 16, 32 and 64 GB and offers a large amount of storage in a keychain suitable design, allowing all relevant data to remain close at hand. Rely on storage solutions from Sharkoon!
